PROFESSIONAL SUMMARY

DevOps & Cloud Engineer with 3 years of hands-on experience in building automated CI/CD pipelines, containerizing applications, and managing AWS cloud infrastructure using Infrastructure as Code (IaC).

SKILLS

- Cloud: AWS (EC2, S3, RDS, EKS, IAM)
- DevOps & IaC: Terraform, Docker, Kubernetes, Jenkins, GitHub Actions, Ansible
- Scripting: Python, Shell Scripting
- Monitoring & OS: Prometheus, Grafana, Linux (Ubuntu, CentOS)

WORK EXPERIENCE

DevOps Engineer | Paytm

06/2022 - Present

- Automated AWS cloud infrastructure provisioning using Terraform scripts.
- Containerized Python microservices using Docker and deployed them onto AWS EKS clusters.
- Configured Jenkins and GitHub Actions pipelines for automated testing and zero-downtime deployments.

Associate Systems Engineer | Infosys

07/2021 - 05/2022

- Managed Linux production servers, user access permissions, and shell scripts.
- Assisted senior DevOps engineers in setting up Prometheus and Grafana metrics dashboards.

EDUCATION

B.Tech in Computer Science | Guru Gobind Singh Indraprastha University (GGSIPU), New Delhi (2021)

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- HashiCorp Certified: Terraform Associate
